## 2018 SYRAH

*Bitner Vineyards Estate- Snake River Valley, Idaho*

*Bee Friendly Farming / LIVE Certified Sustainable / Salmon-Safe Certified*

Syrah is one of the world's most widely-planted varietals, producing dark, full-bodied wines that are fruit-forward and accessible when young, yet capable of developing great character and elegance with age.

### Tasting Notes

The warm, sunny climate of our Snake River Valley vineyard delivers a gorgeous, deep purple wine with smooth, well-integrated tannins and medium acidity. It features aromas of leather and tobacco and a range of flavors from plum and blackberry to hints of bacon fat and pepper on the finish.

### Perfect Pairing

This full-bodied, expressive wine will hold its own against rich, dry-rub meats, juicy burgers, or portobello mushroom and veggie kabobs. We love it with cedar-plank grilled salmon.
